Welcome to the first edition of Career Matters for 2013. I trust that it will be a fulfilling and enjoyable year ahead for you and your loved ones. This year we will endeavour to bring you a new edition each week so it is worth checking in to see what’s new more regularly. This is the main vehicle by which I will inform students and parents about forthcoming seminars, Open Days, new courses etc. The Open Day Calendar will be posted early in Term 2 when all institutions have finalised their dates. Most institutions choose weekends in July to open their doors to prospective students. I am very much looking forward to meeting all Year 10 families for the Morrisby Report debrief over the next few weeks. The code to book an interview is ZSAQE. At subject selection time it is very obvious which students have availed themselves of the opportunity to engage in an extended personal conversation related to suitable courses and career areas.

Please do not hesitate to email (adawson@mentonegirls.vic.edu.au) or ring me on 9581 1285 about any career or course related matter.

Kind regards

Ms Annie Dawson

For more careers information and advice, please contact Careers Counsellor, Ms Annie Dawson on 9581 1285 or email: adawson@mentonegirls.vic.edu.au (Mon-Wed).

**UMAT 2013**

Year 12 students will need a UMAT score for applications to the following courses:

- **The University of Adelaide** - Medicine, Dental Surgery
- **Flinders University** - Clinical Sciences/BMBS, Vision Science
- **Charles Darwin University** - Clinical Sciences
- **The University of Newcastle/University of New England** - Joint Medical Program
- **The University of New South Wales** - Medicine, Optometry
- **University of Western Sydney** - Medicine
- **Bond University** - Medicine
- **The University of Queensland** - Medicine (provisional entry), Dental Science
- **Monash University** - Medicine, Physiotherapy
- **University of Tasmania** - Medicine
- **The University of Western Australia** - Medicine, Dental Medicine
- **The University of Auckland, New Zealand** - Medicine
- **University of Otago, New Zealand** - Medicine, Medical Laboratory Science, Dental Surgery, Physiotherapy

- Find out more at [http://umat.acer.edu.au/](http://umat.acer.edu.au/)
News from around the Unis and TAFES

Studying at Le Cordon Bleu

Do you have a passion for cooking? Particularly French cuisine?

Le Cordon Bleu, as a culinary arts school, was founded in Paris in 1895 by the journalist and publisher of La Cuisinière Cordon Bleu magazine, Marthe Distel. From this point on, the international reputation of Le Cordon Bleu spread rapidly.

Today, Le Cordon Bleu proudly offers more than 29 international schools across 5 continents, and is attended by more than 20,000 students every year. Students are taught by our Master Chefs, of which the majority come from Michelin-starred restaurants or are winners of prestigious competitions and titles such as Meilleur Ouvrier de France. They pass on their knowledge of classic French cuisine and modern international culinary techniques to our students. Le Cordon Bleu Australia has a number of campuses – Adelaide, Sydney and Melbourne.

Le Cordon Bleu offers the following degree programs:

- Bachelor of Business (International Hotel Management)*
- Bachelor of Business (International Restaurant Management)*
- Bachelor of Business (Food Entrepreneurship)**
- Bachelor of Business (Wine Entrepreneurship)**
- Bachelor of Business (Culinary Management)***

* Delivered at both the Sydney and Adelaide campus
** Delivered at the Adelaide Campus
*** Delivered at the Melbourne Campus

Visit [http://www.cordonbleu.edu/home/en](http://www.cordonbleu.edu/home/en) to find out more!

News from Holmesglen Institute

- Bachelor of Nursing

Did you know that you can complete a Bachelor of Nursing degree at Holmesglen? Did you know that this nursing degree is a Commonwealth Supported Place (CSP)?

The entry requirements into the Bachelor of Nursing is a successful completion of the VCE including units 3 and 4 English (any) with a study score of at least 25, and units 3 and 4 mathematics (any) or equivalent. Students will also need to attain a minimum of a 50 ATAR to be considered for this course. The degree has been fully accredited by the Nurses Board of Victoria (NBV) and students who successfully complete the degree are eligible to apply to the NBV for registration as a Division 1 nurse in Victoria. For more information about this degree and the course structure, etc. visit [www.holmesglen.edu.au/nursingdegree](http://www.holmesglen.edu.au/nursingdegree)
CSU - Bachelor of Oral Health (Therapy/Hygiene)

Charles Stuart University’s Bachelor of Oral Health (Therapy / Hygiene) is a three-year program, developed in close association with industry to prepare graduates for a career as a dental hygienist or dental therapist.

As a graduate of CSU’s Bachelor of Oral Health (Therapy / Hygiene), students will contribute to combating the chronic shortage and increasing demand for oral health professionals Australia-wide, while also significantly impacting the health of our local communities.

Qualified dental therapists are clinicians that examine and treat diseases of the teeth in children and adolescents through primary to secondary school.

Dental hygienists are clinicians that assist dentists in the treatment of patients. They provide skilled preventive services to all patient age groups. Although hygienists work in collaboration with a dentist to determine treatment therapies for each patient, they work independently to deliver these services.

This course is now offered, through CSU at Holmesglen Institute’s Chadstone campus in Melbourne with a final year based in Wagga Wagga, NSW.

Students will study the first two years at Holmesglen in Melbourne with a one-week orientation in Wagga Wagga during the first year and a period of up to six weeks of clinical time at Wagga Wagga in the second year. The third and final year of study will be based at Wagga Wagga Campus and students may undertake clinical placement at any one of CSU’s five dental clinics.

To find out more, visit www.csu.edu.au/courses/undergraduate/oral_health

Experience La Trobe University

Experience La Trobe is designed especially for Year 10, 11 and 12 students and their parents to get a taste of what it is like to be a university student for a day and get the inside scoop on what really happens after high school. Students may participate in workshops of their choice, find out about student life and also check out the Melbourne campus, including student accommodation. University students and staff will be there to help participants out and answer any questions that might arise. Experience La Trobe is a free event - with lunch and entertainment provided!

Date: Friday 5 April 2013  
Time: 9.30am – 4.30pm  
Venue: Melbourne Campus, north-eastern suburb of Bundoora, at the intersection of Plenty Road and Kingsbury Drive

To register, visit http://www.latrobe.edu.au/events/2013/experience-la-trobe-melbourne-campus-autumn, or email study@latrobe.edu.au for more information.
Science in the City – Lab tours

Students, parents and teachers are invited to visit RMIT’s state-of-the-art learning laboratories, and see first-hand the broad range of sophisticated equipment and facilities available, and discover what science at RMIT is all about. Lunch or refreshments will be provided.

The tour dates are:
- Thursday 11 April, 1.30 pm - 4.00 pm
- Tuesday 2 July, 11.00 am - 1.30 pm
- Wednesday 25 September, 2.00 pm - 4.30 pm

Register at www.rmit.edu.au/appliedsciences/discover

Charles Sturt University

Charles Sturt University (CSU) is one of Australia’s respected national universities offering around 400 courses to students worldwide. Of those numerous courses, students considering studying dental science, environmental science, forensic studies, pharmacy and physiotherapy might like to spend a few minutes finding out a bit more about these courses offered at CSU.

What's The Right Health Job For You – Career Quiz

Different people are good at different things. This career quiz has been designed to find out more about you and the kinds of things you do best. That information will help us work out the types of jobs you'll be best suited to, and also the kind of work you're most likely to enjoy. Take the career test now.

Are you considering a career in the health industry but are undecided about the range of careers you may be suited to? Log on to [http://healthheroes.health.gov.au/quiz](http://healthheroes.health.gov.au/quiz) and try the career quiz!

Alternatively, visit [http://healthheroes.health.gov.au/](http://healthheroes.health.gov.au/) and browse the various videos and numerous jobs in the health industry from acupuncturist to youth worker and many inbetween!

School Holiday Program @ the RSPCA

Students considering working in the animal industry one day might like to participate in one of the following activities over the April holidays:

1. **Animal Attendant for a Day (13-18yrs)**
   
   Thursday 4 April
   
   9:30 – 3:00 pm
   
   Is looking after animals, all day, every day your idea of an ideal job? For an Animal Attendant it is! Come and see how our Animal Attendants provide for the animals at the RSPCA. **Places are limited.**

2. **Vet Day (15-20yrs)**
   
   Wednesday 10 April
   
   9:30 am – 3:00 pm
   
   Are you interested in working with animals in the future? Take a backstage look at the work of vets at the RSPCA. Watch live surgery in our animal hospital, learn about assessing a dog’s health and temperament and spend some quality time with our education animals. **Places are limited.**

Visit [http://www.rspcavic.org/services/education/holiday-programs/youth-holiday-program#animal-attendant](http://www.rspcavic.org/services/education/holiday-programs/youth-holiday-program#animal-attendant) for more information about any of these programs and/or call Penny on (03) 9224 2286 to book a place.
Study Abroad Programs offered at Deakin

Studying abroad can be an enriching, life-changing, experience where learning extends to the world beyond the classroom walls. Through the Deakin University Education Abroad program students can experience life in a different country and gain credit towards their Deakin degree at the same time.

Education Abroad programs are available to all students, including postgraduate and international students, and offer students the chance of a unique experience while contributing to their social, personal and career development.

By taking part in an Education Abroad program, students will:
- Prepare for the global employment market—gain a competitive edge through their international experience.
- Develop personally—learn and grow, embrace a new culture and challenge their beliefs.
- Gain academically—access a full and diverse set of subject choices.
- Learn or improve another language—learn as much outside the classroom as within.
- Travel and have fun—see the world, explore amazing places and make a worldwide network of friends from many different backgrounds.

Students get to choose from a range of Education Abroad programs depending on their personal needs and goals, including exchange programs, study abroad programs, summer and winter programs, and short-term international study programs.

Eligibility - Eligibility requirements do differ depending on the area of study and the Education Abroad program chosen.

Costs - The cost of studying overseas varies greatly depending on the duration of the overseas stay, the program the student is enrolled in, and the planned destination. There is funding available to assist students with the costs associated with studying overseas—in the form of Scholarships, Travel Grants and loans that students may apply for.

In conclusion, when applying for the Exchange or the Study Abroad program, students will need to demonstrate how they plan to support themselves financially while overseas.

Bachelor of Food & Nutrition

The Food and Nutrition course has a very strong focus on people’s health, and students gain an understanding of food, including food choice and its relationship to health, as well as the role of nutrition in human health and disease prevention (dietetics focusses more on assisting people who already have a disease). Students get the opportunity to undertake elective units of study in complementary areas such as health promotion, psychology, physical activity and health or exercise science. For students keen on a career in the food industry, it is recommended that they undertake a food science major sequence, which provides knowledge and skills for employment in the food industry. Students may also choose to undertake an industry placement elective unit to get hands-on experience within their degree.
From the diagram above, students can note that there are different areas a degree in Food and Nutrition can take them. **Students who want to find out more about these areas, visit [http://www.deakin.edu.au/health/ens/careers/food-nutrition/index.php](http://www.deakin.edu.au/health/ens/careers/food-nutrition/index.php) and click on the links of most interest.**

➤ **New Majors offered in the Bachelor of Health Sciences**

The Faculty of Health has introduced a few new majors in the Bachelor of Health degree. These include –

**Health and Sustainability**

For students concerned about the environment and how it affects our health! For students who want to be at the forefront of public health and health promotion in dealing with climate change and other sustainability issues! The **Health & Sustainability Major** will lead to potential employment in community based and professional settings including local, state and federal governments, non-government agencies, and health and community services.

**Environmental Health**

Are you passionate about the environment and how it affects our health? Want to find some solutions? Want to be a leader in the field of environmental health? The **Environmental Health Major** will lead to potential employment in a variety of professional settings including local, state and federal governments, private agencies, and research services.

**Medical Biotechnology**

Do you enjoy reading about and/or watching programs about medical research and innovation? Do you have an inquisitive mind? Are you curious about how the human body works and how it can be improved? Do you enjoy laboratory practicals? The **Medical Biotechnology Major** can lead to a career in -
• Health & Medical Research
• Clinical Trials
• R&D – Pharmaceuticals, Medical Devices, Vaccines
• Sales – Pharmaceuticals, Medical Devices, Vaccines
• Health-related Education
• Higher Research degrees
• Entry into graduate-entry programs, such as Bachelor of Medicine Bachelor of Surgery

For more information visit [http://www.deakin.edu.au/future-students/courses/course.php?course=H300&stutype=local&keywords=health#MAJOR-SEQUENCES-LIST](http://www.deakin.edu.au/future-students/courses/course.php?course=H300&stutype=local&keywords=health#MAJOR-SEQUENCES-LIST), or email health-hsd@deakin.edu.au.

The University of Otago (New Zealand) – Quick Facts

- Ranked 133 on the QS World’s Top Universities Rankings in 2012
- At the University of Otago, students have the option to study courses in Science, Health Sciences, Humanities and Commerce.
- Students join a diverse population of well over 20,000 students from around New Zealand and more than 100 nations around the world.
- Of particular significance to Australian citizens and permanent residents of Australia is that these students study as domestic students while in New Zealand.
- Australian citizens and permanent residents pay the same fees as New Zealand citizens.
- Minimum ATAR of 74 is required for consideration for entry

To find out more about studying at the University of Otago, visit [www.otago.ac.nz](http://www.otago.ac.nz) and most particularly [http://www.otago.ac.nz/prospectivestudents/australia/index.html](http://www.otago.ac.nz/prospectivestudents/australia/index.html).

Youth Central Website

Youth Central has a huge range of tools and information for students about apprenticeships, traineeships, finding a job, and more! Topics and tools include:

- Animated interactive guides about things like getting an apprenticeship
- Video interviews with employment experts
- Printable job search checklists
- Downloadable résumé templates
- Career profiles
- Information about your rights at work

For more information, browse [www.youthcentral.vic.gov.au](http://www.youthcentral.vic.gov.au)
TSFX VCE Programs

The School for Excellence (TSFX) offers a range of VCE programs aimed at assisting students in gaining skills necessary to maximise their VCE scores. A few of these programs include –

1. **Mastering the VCE** – this program features study skill lectures tailored specifically for Year 11 and Year 12 students. Valued at over $300, these lectures are *free of charge* although a minimum donation of $10 is requested that will be donated to Beyond Blue and the Fred Hollows Foundation. For a list of subjects, dates of lectures, etc. visit [http://www.tsfx.com.au/?vce-program=mastering-the-vce](http://www.tsfx.com.au/?vce-program=mastering-the-vce)

2. **Master Classes** – the Master Class programs are specialised weekly tuition classes designed to ensure students reach their full potential. These programs build on the teaching taking place at school offering students the opportunity to review and consolidate what they have learned. For more information visit [http://www.tsfx.com.au/?vce-program=master-classes-unit-1-3](http://www.tsfx.com.au/?vce-program=master-classes-unit-1-3)

Tuckwell Scholarship

Australian National University (ANU) has recently launched the **Tuckwell Scholarship Program**. Receiving a Tuckwell Scholarship – valued at $20,000 per year up to five years - is not just about a students’ intellect. It is also about their desire and determination to use their natural abilities to realise their full potential so that they can make a difference in the world. Eligible students need to expect an ATAR of 95+ but students who have experienced disadvantage, or who have achieved significantly in other ways, may still be eligible. **Applications open on 4 March 2013 and close on 2 April 2013.** Shortlisted students must be available for an interview in July, and students will have to make their application to study at ANU through UAC in August 2013. For more information visit [http://tuckwell.anu.edu.au/home/](http://tuckwell.anu.edu.au/home/)
Pharmacy, Pharmaceutical Sciences – What's the Difference?

Pharmacists are directly concerned with people's health and wellbeing. They provide advice on the safe and effective use of medicine. They are actively involved in patient care in hospitals and the community. As medicine experts, they often also work in government, industry, research and clinical-trial roles.

For those students interested in science and healthcare, and who enjoy communicating with people, then the Bachelor of Pharmacy is for them as this is the degree needed to become a pharmacist. In Victoria, the Bachelor of Pharmacy is offered at Monash University - [http://www.monash.edu.au/study/coursefinder/course/2628/](http://www.monash.edu.au/study/coursefinder/course/2628/) and RMIT University - [http://www.rmit.edu.au/programs/bp271](http://www.rmit.edu.au/programs/bp271).

Pharmaceutical scientists are experts in the chemistry, biology and biotechnology required to design and develop medicines. They play a key role in improving human health and wellbeing by researching and developing reliable, accessible and effective treatments. They understand the impact of medicines on the body and diseases. They are also experts in bringing safe and effective products to market.

Students who enjoy solving problems, love chemistry or biology, and want to improve human health, then a Bachelor of Pharmaceutical Science could be their calling as it equips students to work in the pharmaceutical science and biomedical fields. Once again, the Bachelor of Pharmaceutical Science is offered at Monash University - [http://www.monash.edu.au/study/coursefinder/course/2894/](http://www.monash.edu.au/study/coursefinder/course/2894/) and RMIT University – [http://www.rmit.edu.au/programs/bp184](http://www.rmit.edu.au/programs/bp184).

Virtual Pharmacy – Pharmville

Major changes are underway in the way universities are teaching pharmacy to undergraduate students. By way of a virtual pharmacy or “virtual practice environment” students get experience a variety of health care settings, such as a community pharmacy, hospital ward or dispensary, home setting, rural pharmacy depot and remote community health service, where they can interact with virtual 'patients', health professionals and others through role playing, video conferencing, online software and avatars. Developed by Monash University, and used by a number of universities worldwide, students get to practice pharmaceutical calculations required for the compounding process. These calculations are presented as prescriptions from virtual patients, phone enquiries or ‘chats’ with virtual nurses, doctors and patients. Students select the required ingredients from an extensive selection of drugs and raw materials and measure out the correct amount or provide other dosage related data as prompted.

News from Monash University

- **At Monash Series**
  The annual ‘At Monash Seminar Series’ commences in March! These seminars provide Year 11 and 12 students and parents with an insight into the courses and career options within discipline areas. The seminars are presented by academics in conjunction with current university students and graduates, and are held in various locations across the Caulfield, Clayton and Peninsula campuses. Seminars with the same title have the same program.

**Au Pair, Volunteer, Exchange Programs**

AIFS and its family of companies organises cultural exchange programs throughout the world! Whether students are looking for a cultural exchange program, an Au Pair placement, to volunteer or a stint with Camp America, AIFS has a range of opportunities and programs to offer!

Visit [http://www.aifsaustralia.com/](http://www.aifsaustralia.com/) to find out more!

**Antipodeans Abroad**

Are you unsure what to do once you finish Year 12? Perhaps you are unsure what you want to study at university or TAFE? Perhaps you want to consider taking a GapBreak. Antipodeans Abroad invites students to join their GapBreak program, a 3-6 month volunteer placement in a developing country. There will be an Information Night that interested students might like to attend!

**When:** Monday 18 March 2013  
**Time:** 6.30pm – 7.30pm  
**Gap Medics**

Our programs offer students interested in healthcare a genuine insight into the hospital work of doctors and nurses in Tanzania, Zanzibar, Thailand and the Czech Republic. **Gap Medics** are offering an exciting project for students that are looking to apply for university courses in medicine, nursing, dentistry or midwifery. **Gap Medics** is a provider of short-term healthcare work experience placements abroad. Although based in the UK, its programs are open to students from all around the world. This organisation is dedicated to arranging hospital work experience placements for students who are applying to medical or nursing school in particular.

**So, what does the project involve?** During weekdays, students shadow highly skilled doctors in their day-to-day work on a fully-supervised hospital placement. Students will also have the benefit of clinical teaching, safe and secure accommodation, food, transfers in Tanzania or Thailand, local orientations, 24/7 support from **Gap Medics** support teams overseas and in the UK and lots of help with preparations for their trip too.

Visit [http://www.gapmedics.com/](http://www.gapmedics.com/) to find out more!

**LATTITUDE. Lattitude Global Volunteering**

**Lattitude Global Volunteering (formerly Gap Activity Projects)** has been offering international volunteering and gap year projects for 17-25 year olds, for over 35 years. A diverse range of projects are on offer in Asia/Pacific, or further afield in Europe, the Americas and Africa.

Lattitude Volunteers...

- are not tourists. They immerse themselves in the local culture and become members of that community. They learn about a country from within
- step outside their comfort zone and achieve something unique
- experience life, living and new horizons

Applications for 2014 are already open! Visit [http://www.lattitude.org.au](http://www.lattitude.org.au) to find out more!

**GAP Year through Tutors Worldwide**

There are many different ways in which a GAP Year can be organised. **Tutors Worldwide** offers students the opportunity to work in an overseas school environment at either prep or secondary (high) school. Currently **Tutors Worldwide** recruits for (both senior and junior) schools in the UK, Australia, New Zealand and South Africa, and from among students in the same countries, incorporating personal visits to all countries.

For more information or to download the application form, visit [http://www.tutorsworldwide.org/](http://www.tutorsworldwide.org/). Applications close 11 April 2013.
Volunteer Abroad with WEP

World Education Program (WEP) Australia is now offering a range of international programs for people over the age of 18! Programs include volunteer and conservation projects, work & travel and internships, teaching English overseas, international language study and language & volunteer packages.

WEP's GAP programs bring together volunteers from all over the world to help communities in need, and volunteers learn:

- to work through the various challenges of adapting to a new culture
- mature, gain more confidence and develop greater self-awareness
- gain a better understanding of the world and international relations
- develop a much more worldly, focused and determined approach to life once back in Australia

Find out more by visiting www.volunteerabroad.com.au or call 1300 884 733.
